COMMENT

Meeting Attended:

I was not able to attend a meeting

Important Issues:

Land Use (Agriculture, Residential, Recreation), Project Purpose and Need, Other

OTHER: As an alternate route for electricity into the San Luis Valley.

Property Uses:

Agriculture

Comment:

This line is important for the San Luis Valley to get electricity in and out of the valley. The solar power that can be generated here is important, but for me it is more important to have a secondary route by which electricity can be brought into the valley. I have heard recently that a few people in government positions oppose the proposed route and want to route it a different way at a greatly increased cost. I think they need to realize this is an important project. They should be thankful that Xcell and Tri-state are willing to do this project.
